

# Download Fresenius Training Manual

Infusion pumps (syringe and volumetric) for fluids, medication, nutrients, pain management and TIVA (Total IntraVenous Anesthesia). Blood warmer see the Fluid Warmer section. Infusion pumps of Alaris, Imed and CardinalHealth might be identical. For over 30 years, the Fresenius Renal Technologies team have partnered with our customers to deliver the highest quality product support documentation. There are 2 types of peritoneal dialysis (PD): continuous ambulatory peritoneal dialysis (CAPD) and automated peritoneal dialysis (APD). Both types of PD have slightly different advantages, so it really comes down to your personal preference and schedule along with your nephrologist's recommendation. Dialysate Composition and Safety. The presentation will look at the effects of dialysate prescription settings and theoretical conductivity. These principles will lay the foundation for examining the importance of machine calibration, pre-treatment, point-of-care testing and alarm set points.
